

MINI TRUSS SYSTEM

Never before has an exhibition system proven to be so flexible and versatile at such low cost! The modular possibilities, without the use of tools to assemble. Easier solution to bring image and background to important activities does not exist!

Mini Truss system provides a full solution: A patented 10 x 10 cm truss-system, made in composite. The potentials are countless from POS stands in any shape (straight or curved) to replacement of known standard solutions and all the way up to complex exhibition designs. Remarkably simple, all from the same few components.

No Heavy Modules

No complicated assembly required

No tools required

Photo	Description	Taille	Couleur	Poids
	Module	From 10 to 180cm	Black (white optional)	< 1 Kg /meter
	Cube	10x10cm	Black (white optional)	0.39 Kg
	connector	10x10cm	Black (white optional)	0.03 Kg
	Base	16x16cm	Black (white optional)	0.14 Kg
	Base	16x60cm	Black (white optional)	0.5 Kg
