A solution for every requirement

Our comprehensive range of Creative Display Solutions

Whether you are looking for a display stand to give your brand standout at an upcoming exhibition, or marketing collateral to support a pop-up store or event, our extensive product portfolio has you covered. Whatever your industry or application, we offer innovative creative display solution to give your messaging standout.

01 Lightboxes

Create outstanding visual impact with back lit or edge lit LED graphics, ideal for temporary, permanent and customised applications.

02 Display Stands

Complete exhibition stand solutions, incorporating hanging structures, modular stands, towers and customised stands

03 Display Backwalls

Large format graphic backdrops ideal for conferences, promotional activities and events

04 Display Banners

Portable display options, ideal for temporary deployment

05 Display Signs

Professional wall, floor and suspended signage solutions

06 Digital Displays

Captivate and connect with digital displays

07 Flags

Attract attention at a distance through movement with eye-catching flag solutions

08 Tents

Perfect temporary shelters, pop-up shops and market stalls for outdoor use

09 Counters

Adaptable and portable temporary counters for promotional, display and exhibition applications

10 Barriers

Easy and convenient barrier systems to manage queues, control crowds and create temporary areas

11 Ancillaries

Accessories designed to increase the functionality of a chosen product range

For outstanding visual impact in interior spaces, lightboxes are the perfect option.

Vibrant graphics, edge lit or back lit with energy saving LEDs, create focal points that add depth and drama to retail spaces, exhibition stands, commercial properties and beyond.

We offer two ranges of lightbox solutions. The Illuminova™ range combines vivid SEG fabric graphics with a sleek profile in a choice of standard or custom dimensions. For instant impact, our portable Illumigo™ range is available in a variety of standard sizes to bring your retail space to life.

illuminova™

The Illuminova™ range encompasses wall mounted, hanging and free-standing LED lightboxes in a choice of standard or custom sizes. Ideal for adding visual interest to feature walls and shop windows as well as transforming areas with low ambient lighting. Easily refreshed with updated graphics, Illuminova™ provides the perfect framework to display enhanced vibrant messaging.

iLLUMiGO™

The Illumigo™ LED lightbox range combines stunning graphic illumination with instant, tool-free assembly. For ease of transportation and storage, the aluminium LED frames are lightweight and come in a handy carry case. Simply update the graphics, for a fresh and sustainable way to transform spaces with light.

75mm Illuminova™ wall mounted

Create a striking focal point with the 75mm Illuminova™ LED edge lit wall mounted lightbox. Available in standard and custom sizes, the linkable LED lighting system delivers consistent lighting for a dramatic visual display.

Illumigo™ Modular

Illumigo™ Modular is a striking large-format illuminated display system, standing at 2380 mm high and engineered for exceptional visual impact. Designed with flexibility in mind, it delivers seamless edge-lit SEG graphics across widths up to 7.85 metres, making it a standout choice for retail spaces, exhibitions and promotional environments, all without the premium price tag.

Whether you are creating a wide backwall or an immersive multi-sided layout, the system supports large-scale continuous displays and dynamic configurations. Five frame widths are available: 1850 mm, 2850 mm, 3850 mm, 4850 mm and 5850 mm, alongside two extension panels (850 mm and 1000 mm), which accommodate seamless graphics across multiple sections. The sleek, 120 mm deep aluminium profile is powder coated in white for a clean, professional finish.

Make a bold visual statement with L, T and U-shaped structures that showcase illuminated graphics from multiple angles. With three connector types (sold separately), it is easy to build creative shaped configurations that turn heads. Two optional foot styles provide added stability and aesthetic flexibility, and an A4 literature holder (sold separately) is available to complete your setup.

Illumigo™ Lite Mag

Illumigo™ Lite Mag is a high-impact illuminated display designed to deliver style, versatility, and affordability in one sleek solution. Featuring an elegant 80mm white aluminium profile and double-sided illumination, it offers exceptional brightness and presence in any setting - from exhibitions and retail spaces to corporate environments.

Its innovative design includes a unique perimeter channel that allows multiple frames to be effortlessly linked together in L-shapes, T-shapes, or straight-line configurations, providing endless creative possibilities for modular display layouts.

Built-in magnetic connections make assembly and reconfiguration fast and tool-free, ensuring precise alignment and effortless setup every time. The system can also be enhanced with optional accessories such as A4 literature holders, adding functionality to its clean, contemporary design.

Illumigo™ Counter

This versatile and quick to set-up double-sided counter lightbox is a great all-rounder not only at events but in retail environments from shopping centres to pop-up shops. Part of the Illumigo™ range, the Illumigo™ Counter is easy to assemble with a two-part counter-top that secures using a pair of twist out top locators and locking screws. Building the unit is intuitive and tool-free as all the parts are numbered and simply slot together. Two optional graphics complete the look to create an impactful counter ideal for attracting attention in retail, event or exhibition environments.

Display Stands are the perfect solution for an array of different applications.

From exhibitions, conferences, events, retail event zones to window displays and product showrooms; their uses are unlimited. The perfect stand will showcase and increase the opportunity to interact with existing and potential customers by creating engaging, and innovative brand promotion and messaging.

Modulate™

Fastframe™

Vector

Stand component systems

Modulate™

Modulate™ is the fusion between two of our original concepts: Formulate and Vector. The range is composed of various frames made of aluminium tubes, equipped with the patented magnet system: MagLink.

Modulate™ provides a custom build solution through its hundreds of possible configurations using the various modules.

Vector

One of the simplest and most versatile communication solutions on the market, Vector is an aluminium frame system with a stretched fabric graphic that adapts to any environment. With a variety of different profiles, all applications are possible: suspended, wall-mounted, self-supporting, double-sided or illuminated utilising Illuminova™.

Fastframe™

A unique pre-assembled foldable framework for fast construction and endless Creative Display Solutions - the perfect seamless backdrop for visually striking SEG graphics.

Arena

Arena is a tubular aluminium gantry structure that is both extremely strong and light. The different sections can be assembled according to the space and can be covered with fabric or vinyl graphics.

Hanging Structures

Select one of our lightweight Formulate hanging structures to complement your stand design, which uses a lightweight 30mm tubular system that can be neatly wrapped in a fabric printed graphic.

TRANSFORM SPACES IN SECONDS

Considerations for exhibitions

Why exhibit at a trade show?

Trade shows remain the preferred communication channel for companies seeking to increase their reputation and promote their image.

The benefits of a trade show are vast and very attractive. They enable several actions to be carried out in a relatively short period of time:

- Brand positioning
- Prospecting
- Market research
- Product launches
- Building customer loyalty
- Business networking

The centrepiece: your stand

The success of any trade show depends on its cost vs quality and ROI for generating leads and meeting other sales / marketing objectives.

1. Location:

How much space? How many open sides?

2. The design:

Which media: textile, rigid, flexible panels?

Need to communicate in height: sign,

extension or extension of storage room?

Do you need a storeroom to store equipment?

What kind of lighting?

3. Use:

How often?

Will it need to be scalable in shape and size?

What means of transport do you have?

Will the stand be reused in another environment

i.e. customer showroom, inhouse events etc.?

4. The budget :

What is the budget for the stand?

Over how many shows will it pay for itself?

The keys to success

To have a successful trade show, it is essential to:

- Set 3 to 5 objectives that will guide the marketing strategy of the event
- Ensure maximum visual impact with a quality stand that will enhance the company's image (openings, suspended communication, graphics, materials, etc.)
- Implement effective communication and promotion: before, during and after the event (emailing, invitation, social networks, stand promotion, etc.)

Why choose a modular stand?

- Lightweight and compact
- Reconfigurable
- Quick payback
- Durable
- Easy to assemble
- Standard or custom made
- Unlimited message renewal
- Ergonomically friendly

MODULATE™

Modulate™

The best way to attract attention

Modulate™ is the fusion of two original concepts that have proven successful in the exhibition and retail worlds; Formulate and Vector.

Modulate™ is a collection of various frames made from aluminum tubes and covered with a printed textile cover. These frames can be easily connected to each other by means of powerful magnets placed inside each structure.

Based on this simple magnetic principle, it is possible to combine the different Modulate™ frames to create configurations for all communication areas: at the point of sale, at trade shows, in exhibition areas, in shopping centres or simply within companies themselves.

MagLink connector, simple, fast and reconfigurable

Thanks to the exclusive MagLink magnetic system integrated into the structure, you can connect the frames to each other simply by bringing them together.

Optional 400 mm extension to change the height of the structures

MagLink connectors 360° in each post

Modulate™ carry bag with dedicated slots for feet and graphics

Intuitive marking on each section for easy assembly

Self-locking system with a push-fit button

Rounded or straight corners with the reference MOD-SQ-ANGLE

2 stabilising feet with Twist & Lock system, supplied with each frame

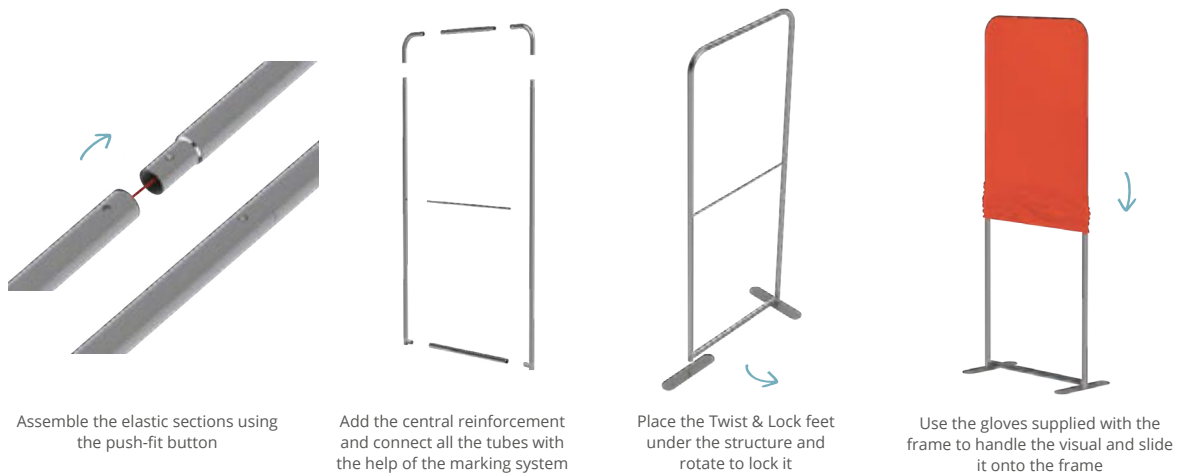

Central reinforcement bar (18 mm diameter)

Double-sided custom printed fabric graphic that zips closed

Tool-less assembly

Modulate™ structures are easy to assemble without tools. Each section is marked with numbers and colours and connected with push buttons. Once the structure is assembled, the Twist & Lock feet will rotate a quarter of a turn until they lock into a perfectly stable self-supporting frame. Finally pull-on the printed fabric graphic which perfectly fits to the contour of the frame.

Twist & Lock Foot installation

Structures with unique technological innovations

To add versatility to Modulate™ structures, a 400 mm tubular extension can be added. With this extension, which is easily placed between two sections, you can use the same frame with two different heights.

Standard Modulate™ Frames

Modulate™ is an innovative double-sided display system that consists of a set of lightweight aluminium frames covered with a custom printed tension fabric graphic. Frames connect together using powerful magnets encased inside each element and can be joined at any angle to create shaped displays or backwalls. Frames are completed by pulling a tension-fit fabric graphic over the frame and zipping at the base. Frames are available in various widths and two height options. Each frame is supplied with two stabilising feet which can be used if required for extra stability. The Modulate™ Straight frames can be used on their own or combined with other frames to create hundreds of configurations.

MOD-SQ-ANGLE	
--------------	--

Spotlight Clamp for Formulate / Modulate™ Tube

US903	⊗ 48(w) x 32(h) x 50(d) mm
-------	----------------------------

Modulate™ Counter

Modulate™ Counter consists of an innovative aluminium tubular frame, counter-top, and printed tension fabric graphic. Powerful magnets encased inside the frame enables two or more counters to connect using simple magnetic principles. The counter can be used on its own or combined to make a long reception or bar area. Modulate™ Counter can be deployed in minutes, thanks to the tool-less construction. The printed tension fabric graphic will either sit on or under the counter-top to suit the application.

Material	Ø 30mm Aluminium tubes, MDF tabletop/shelf
Assembly	Push-fit button
Collapsible	Yes
Counter top	Black
Shelves	1 (Optional)
Graphic attachment	Zip system
Transport	One padded carry bag, internal flap

Modulate™ Counter	FORM-MOD-CNTR	⊗ 1015(h) x 800(w) x 600(d) mm
Internal shelf	FORM-MOD-CNTR-02	⊗ 9(h) x 770(w) x 571(d) mm

PATENT PENDING

Use it on its own or combined, simply by using the integrated magnets!

Pre-configured Modulate™ stand examples

This section showcases examples of various pre-configured Modulate™ Stands that can be achieved using the various Modulate™ hardware and ancillaries.

Modulate™ Stand 6m²

Material	Aluminium	
Tube	30mm Ø	
Assembly	Tool-free push-button connectors	
Graphic area	Double-sided	
Graphic attachment	Zipped tension-fit graphic	

Modulate 800w x 2400h squared corners	1	MOD-S-824-SQ
Modulate 1800w x 2400h squared corners	2	MOD-S-1824-SQ
Modulate 2000w x 2400h squared corners	1	MOD-S-2024-SQ
Half foot (pair)	3	MOD-HALF-FOOT-P
Formulate oval counter	1	FORM-OVAL-CNTR
LED floodlight (x2 + 1 driver)	2	LED-FLOOD-ARM-BDLK
Spot light clamp for modulate	4	US903

Optional Spot
LED-FLOOD-ARM-BDLK

Clamp US903

Supplied with product bags

Modulate™ Stand 9m²

Material	Aluminium
Tube	30mm Ø
Assembly	Tool-free push-button connectors
Graphic area	Double-sided
Graphic attachment	Zipped tension-fit graphic

Modulate 800w x 2400h squared corners	3	MOD-S-824-SQ
Modulate 2000w x 2400h squared corners	2	MOD-S-2024-SQ

VECTOR

Vector

Visual marketing for every budget

Whether wall mounted or free-standing, the diverse range of Vector aluminium profiles provides a solution for every need and every budget.

Vector offers optimal visual impact and original designs that can be adapted to any event: showrooms, point of sale, exhibitions, museums and many others.

Quick Fix 20 mm

50 mm

Illuminova™ brings your Vector stand to light

Add eye-catching Illuminova™ lightbox modules to your Vector display stand. Available in 4 standard LED modules, (I, J, P, and Q), both systems can be combined to create a striking mix of simplicity and illumination to your exhibition stand.

75 mm LED

100 mm LED

Anodised aluminium profiles

The Vector and Illuminova™ modules are available in a range of aluminium profiles to suit each application. For more information, please consult the table below.

Vector Modules

An ultra-compact solution

From free-standing textile walls to exhibition stands, the Vector range offers a versatile and adaptable solution for all your events. The Vector frame system with stretched fabric covering is one of the simplest communication solutions on the market, particularly in a stand environment. Scalable, reconfigurable, ultra-portable: go from a 9m² to a 15m² stand with ease. Easily create stands of all sizes and shapes and accessorise them with spotlights, counters, document holders, and anything else you need to display.

A compact solution for portability and optimised storage

Choose the Vector Modules:

- 50 mm aluminium profiles
- Different modules: walls, arches, LEDs, storage...
- Packaged in numbered sections of 1250 mm
- Delivered in a cardboard box with assembly instructions, accompanied by the visual of your choice
- In stock all year round
- Each module is already perforated on 4 sides and equipped with the necessary screws: easily assemble different modules together, one Allen key is the only tool you will need.
- Reconfigurable and reusable: store the stand at home in a small box (1350 x 400 x 300 mm)
- Excellent return on investment

Go from a 3m² stand to a 15m² stand in the blink of an eye!

»» FASTFRAME™ your **innovative**
and **cost-effective** modular
Display Solution.

FASTFRAME™ is a unique, **sustainable** and **user-friendly** Display Solution,

More versatile than a pop-up

Highly configurable
Seamless graphics
Easy to change Silicone Edge Graphics (SEG)
Many applications

More flexible than a roller banner

Assembled in seconds
Lightweight, highly portable
One frame, multiple graphics
Single or double-sided graphics
Expandable, no joints
Washable stretch fabric
Cost savings through repeated use

More configurable than an exhibition stand

Expandable – add modules over time
Quick change design
Excellent space utilisation
Toolless construction
Seamless graphic overlay

Transform your space in seconds using **FASTFRAME™**

1. Folded state

The lightweight frame is pre-assembled in a convenient, portable carry bag.

2. Unfold

From its pre-assembled state, the frame can then be effortlessly unfolded and locked in place with a central support rod.

3. Components

Feet can be added if required to give additional rigidity to the frame.

4. Install graphics

Your graphics, available in a Standard or Premium finish, can then be applied to the fully assembled frame.

Sustainable exhibitions

With sustainability a key theme for event organisers and exhibitors alike, modular exhibition systems offer an environmentally conscious choice.

- » Made from aluminium, an infinitely recyclable material
- » Using polyester graphic materials which can be recycled multiple times
- » Graphics printed using water based inks
- » One system for multiple display applications

Enjoy **many benefits**, such as:

An efficient tool-less frame

Unit can be constructed and ready in a short amount of time.

Lightweight and ultra slim

Unit is highly portable, making travel and storage much easier.

Seamless graphic

Apply a single graphic to connected frames to create a large seamless display.

Sustainable

Multiple use, not single use.

Interchangeable graphics

Display multiple messages time and time again.

FASTFRAME™ utilises **Silicone Edge Graphics**

- » Fabric graphics are edged with a silicone strip which slots into the channel of the frame for easy installation
- » This is more cost-effective than alternative options and can be re-used multiple times
- » The graphics are printed using water based inks which is more eco-friendly
- » Seamless graphics can be applied to the connected frames for large displays
- » Graphics can be reproduced to deliver new messages

Polyester Stretch Graphics

Stretch textile fabric, 3mm silicone edge.

Black Back Graphics

Black back textile (black out), 3mm silicone edge.

Arena Structures

Arena Gantry structures for your stand

These 25mm diameter aluminium tubes have been assembled and welded into sections of various sizes to form the basis of an imposing and solid architecture.

A wide range of sections are available to make this solution compatible with your project requirements. With 13 components in various lengths and designs, you can create the right structure for you, and your chosen mode of transport.

Simple, tool-free assembly

Simple assembly - sections are connected using the supplied bolt and wing-nut fixings, and no tools are required. The double-sided graphics are attached to the gantry using a bungee cord. Create maximum brand visibility using sections up to 6m long without the need for reinforcement.

Arena components

Arena Straight Sections

The Arena Straight Sections are available in a variety of lengths, they are strong but lightweight with a natural silver grey finish. The system is quick and easy to assemble using bolt and wing-nut fixings. This aluminium tubular system is both modular and scalable, where different sections can be assembled and reused according to the needs of each project. The structure can then be dressed with interchangeable UV printed PVC graphics.

UT-S250	Section 250mm
UT-S500	Section 500mm
UT-S750	Section 750mm
UT-S1000	Section 1000mm
UT-S1250	Section 1250mm
UT-S1500	Section 1500mm
UT-S2000	Section 2000mm

Arena Junction Sections

The Arena Junction Sections are available in a variety of configurations including: 3-way T-junction, 4-way corner junction. The choice of sections enables a custom build design for your application to create a modular and scalable system. The structure can then be dressed with interchangeable UV printed PVC graphics.

Display Backwalls create a dramatic backdrop to events, presentations, product demonstrations, pop-up shops or window displays.

Ideal for smaller spaces, or as large static advertising boards in public spaces such as museums, reception areas, public transportation hubs and other large spaces.

Display Backwalls

Backwalls can be configured in a variety of ways, based on the application, with each offering a different method of construction, illumination and use.

Pop-up backwalls

Impact Pop-up Straight

A great entry level display backwall that is perfect for use at an exhibition, event or for a demonstration backdrop. Frames are available in a variety of widths, and are quick and easy to deploy using the self-locating locking arms. Magnetic tape attaches to the back of the graphic panels enabling them to be attached directly to the mag bars which are mounted to the frames.

Material	Aluminium structure, plastic connectors
Assembly	Magnetic connectors
Shape	Straight
Graphic area	Single-sided (with or without D-ends) / double-sided (optional)
Graphic attachment	Mag bars, hangers and kickers
Application	Free-standing

3x2 Straight	IMP-3X2S	Ⓢ 1970(w) x 2225(h) x 306(d) mm
3x3 Straight	IMP-3X3S	Ⓢ 2700(w) x 2225(h) x 306(d) mm

Formulate LED Backwall

A bright, bold statement for indoor spaces.

This 3m illuminated backwall combines lightweight engineering with effortless assembly. Built from durable 50mm diameter aluminium tubing, each section is numbered for completely tool-free setup, making install a breeze even for first-timers.

Need flexibility? You've got it. The system can be downsized to 2m or even 1m, giving you multiple display options from a single kit.

Choose between SEG (silicone edge graphics) or a sock-style graphic depending on the look you're going for, both offer a smooth, wrinkle-free finish that keeps your message looking premium.

For lighting, the backwall features three polyester light blankets housing 12 LED strips, delivering even, bright illumination across the entire front surface. Paired with the SEG liner, your graphic stays perfectly lit edge-to-edge.

Material	Aluminium tubing
Tube	Ø 50 mm
Assembly	Push-fit / Allen key
Shape	Straight
Graphic area	Double-sided
Graphic attachment	SEG / SOCK
Application	Free-standing with feet (included)

PVC or fabric graphic, the choice is yours!

Silicone Edged Graphics (SEG)

PVC graphic with magnetic tape

A comprehensive range of professional display signage solutions for a variety of uses from navigational signs to advertising, information, decorative and display needs.

Display signage solutions are versatile, reusable, durable, and reliable, ensuring investment in hardware is maximised, whilst allowing the flexibility to update marketing messages frequently.

Display Signs

With a wide choice of installation options such as wall, suspended or free-standing, we are proud to offer one of the most comprehensive ranges on the market.

Free-standing signs

Wedge

Wedge is a weighted clamping banner base range that comes in 2 parts and is designed to hold a variety of rigid substrates for indoor or temporary outdoor usage. Available in four sizes from 300mm up to 1000mm, Wedge can be used in tandem with a second pair of bases to create larger displays.

Material	Powder coated steel
Graphic area	Single or double-sided
Graphic attachment	Screwed to base
Graphic option	Rigid panel from 18-40mm thickness - optional extra 1500mm height max.
Application	Free-standing

Wedge 300 mm	UB102-300-S	Ⓞ 300(w) x 85(h) x 360(d) mm
Wedge 600 mm	UB102-600-S	Ⓞ 600(w) x 85(h) x 360(d) mm

Outdoor Table

The Zoom Outdoor Table is a professional event table designed for outdoor use where reliability, flexibility and a clean presentation are essential. Perfect for trade shows, market stalls, catering setups, festivals and branded activations, it combines a sturdy, professional quality build with a smart, contemporary look that pairs seamlessly with the Zoom Tent range for a coordinated outdoor display. Quick and easy tool free construction, along with its portable design, makes the table effortless to take to events, set up and disassemble.

Fully height adjustable, the Zoom Outdoor Table offers five height settings from 654 mm up to 945 mm, so you can set it at a comfortable working height for food service, product display or casual interaction. Built for dependable performance, it offers impressive load capacity for equipment and merchandise, while optional foot weights and flag clamp accessories allow you to create a stable, fully branded outdoor workstation.

ADDITIONS: Baseline Panels – Customisable and Versatile Display Solutions

Baseline panels are perfect for expanding your existing display boards or building a completely custom setup. These configurable panels offer flexibility to create displays tailored to your unique needs, whether for exhibitions, events, or office spaces.

Fully Customisable: Add extra panels to your current setup or combine them to design a display board from scratch.

Flexible Configuration: Adapt the layout to suit your space and messaging requirements with ease.

Accessories Sold Separately: Please note that all clips and poles are sold separately, giving you the freedom to choose only the components you need.

Baseline vs. Baseline Plus

The key difference between Baseline and Baseline Plus panels lies in their thickness:

Baseline Panels: Standard thickness, ideal for lightweight and portable setups.

Baseline Plus Panels: A thicker, more robust option for increased durability and stability.

Whether you're enhancing an existing display or starting fresh, Baseline panels offer the quality and flexibility you need to create impactful presentations.

25mm Poles

The display panel male and female poles are essential components designed for secure and versatile assembly of modular display systems.

Male Pole: Features a precise connector that fits seamlessly into the female pole, ensuring a stable and reliable connection. Ideal for creating vertical structures or supporting panels with ease.

Female Pole: Crafted to receive the male pole connector, providing a snug and sturdy fit.

The poles are designed for compatibility and quick assembly during exhibitions or events.

Both poles are made from durable, lightweight materials, ensuring they are easy to transport while being structurally sound. Their sleek design blends effortlessly with various display systems, making them a practical and professional choice for any setup. All poles are finished in grey and are sold separately.

**Our new Digital Display
Range, expanding our
portfolio of Creative
Display Solutions.**

Created in response to rising customer demand, the range includes menu screens, advertising totems, and ultra-wide displays – all designed to boost brand visibility and audience engagement.

Each display is easy to use and backed by a 3-Year Warranty and Lifetime Technical Support. Content can be updated via USB or via an optional remote CMS license, which also supports interactive touchscreen content.

The Digital Display Range expands our creative display solutions offering – providing more ways to captivate, connect, and convert.

Draw attention to branding, products, services, or business premises with custom printed flags.

Instantly noticeable due to their height, shape, and movement, our all-fibre flag poles are durable and flexible, easy to assemble and quick to deploy, making them an extremely effective means of advertising.

Choose from a range of free-standing, post / wall mounted, mobile and specialist hardware that can be used in a variety of applications such as car forecourts, festivals, and beach flags.

Alternatively, deploy taller or multiple flags to increase visibility and attention to branding. Our all-fibre flag poles are reusable with interchangeable graphics for greater return on investment. To protect this investment, it is recommended that flags be kept securely in place by selecting an appropriate base suitable for the desired application and location from the specifically designed range.

Flags

Available as single or double-sided options and printed using hardy, UV resistant media, flag graphics can be utilised indoors or outside with standard or custom flag shapes.

Free-standing flags

Zoom+ Quill / Feather / Crest Flag

Zoom+ flags are a popular and versatile, lightweight flexible flag system, with black finish all fibre poles. Choose Feather, Quill or Crest shaped graphics. Ideal for advertising and used for all types of indoor and outdoor displays. Optional custom printed flag graphics are available in a range of sizes from small to extra-large and with a choice of single or double-sided options (small, medium, and large). The eye-catching shape creates movement in the wind and is a great for attracting attention.

Material	GRP fibre glass pole
Graphic area	Single-sided or double-sided (double-sided only available up to large)
Graphic attachment	Pole pocket (in choice of black, white or printed)
Wind resistance	Up to 63 mph / 101 km/h*

Zoom + Extra Small	UF-ZM-XS	⊗ 580/535/480(w) x 1880/2150/2120(h) mm
Zoom + Small	UF-ZM-SM	⊗ 550/800(w) x 2100/2600(h) mm
Zoom + Medium	UF-ZM-ME	⊗ 600/900(w) x 2800/3200(h) mm
Zoom + Large	UF-ZM-LA	⊗ 800/1100(w) x 3500/4000(h) mm
Zoom + Extra large	UF-ZM-EXLA	⊗ 850/1200(w) x 4600/4900(h) mm

* Under controlled test conditions

Zoom+ Edge Flag

Zoom+ is a popular and versatile, lightweight rectangular shaped flag system with black finish all-fibre poles. Ideal for all types of indoor and outdoor displays. Quick and easy to deploy and can withstand winds of approximately 13 -18m/h (21-29km/h). Optional custom printed flag graphic available in single and double-sided options (small, medium, and large), and all flag graphics have a printed pole pocket. The flag moves naturally in breezy/windy conditions and is ideal for attracting attention on car forecourts, at exhibitions and events, or outside a building or premises.

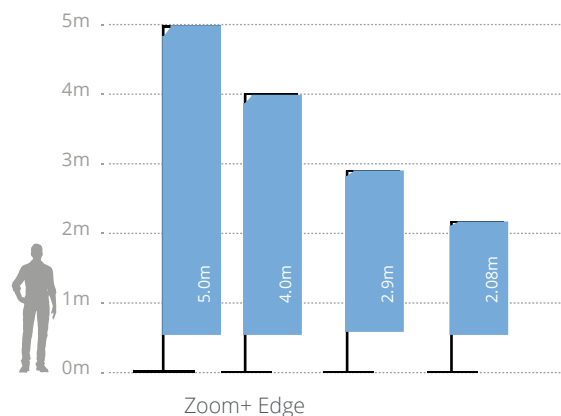

Material	Aluminium and GRP
Graphic area	Single-sided or double-sided (double-sided only available up to large)
Graphic attachment	Pole pocket
Wind resistance	Up to 18 mph / 29 km/h

Zoom + Edge Small	UF-ZME-SM	Ⓞ 750(w) x 2080(h) mm
Zoom + Edge Medium	UF-ZME-ME	Ⓞ 750(w) x 2900(h) mm
Zoom + Edge Large	UF-ZME-LA	Ⓞ 750(w) x 4000(h) mm
Zoom + Edge Extra large	UF-ZME-EXLA	Ⓞ 750(w) x 5000(h) mm

Graphic attaches on to hook

Zoom+ Arch

The Zoom+ Arch stands out at any outdoor event or activity. With an overall height of 3m to the top of the graphic and a 4m width, it's perfect to use as a focal point or to attract attention. Simple and quick to assemble, it can be deployed in minutes and when used with the optional stackable bases, provides an extremely stable display that can be used in wind speeds of up to 20mph.

Material	GRP fibre glass pole - chrome steel end caps, plastic hook
Graphic area	Single-sided
Graphic attachment	Pole pocket
Wind resistance	Up to 19 km/h

Zoom+ Arch	ZOOM+ARCH	Ⓞ 4000(w) x 2500/3000(h) mm

Mistral

1 TEX PVC

The Mistral is a fixed outdoor flag system designed for mounting to lampposts or building exteriors and is perfect for advertising or promoting a brand or event. The mechanism attaches directly to a pole, posts, or wall and can be moved to accommodate varying graphic heights. An eye-catching solution that can also be used for information and wayfinding, this flag is especially effective when repeated over a series of posts.

Material	Aluminium castings and GRP tubes
Tube	Height adjustable
Graphic area	Single-sided or double-sided
Graphic attachment	Pole pocket
Wind resistance	Up to 40 km/h

Storage for poles and rods

Take advantage of outdoor events with a temporary structure and create additional marketing opportunities.

Offer customers protection and shelter from the weather by choosing custom-printed tents that also provide an attractive brand marketing solution.

Conventional pop-up tents and gazebos are fantastic outdoor or indoor structures which provide a unique way to advertise in a vibrant impactful manner with fully printed canopies and walls.

Constructed from robust steel or aluminium in a variety of sizes that are easy to transport, assemble, deploy and pack away, pop-up tents are ideal for short term events, fairs and exhibitions.

Tents

For a more unique and unconventional structure, choose the Bora Inflatable Tent. Simple to inflate for rapid deployment with an appealing eye-catching shape, the Bora, like pop-up tents, also offers optional printed canopies and walls. Customisable areas make highly effective brand

messaging, ensuring maximum impact at events. As with all custom-printed graphics, they can easily be replaced so that hardware is used multiple times, improving return on investment.

Pop-up tents

Zoom Tent Eco

The Zoom Tent Eco is the most cost-effective gazebo in our range. Quick and easy to deploy, the 3x3m tent can easily accommodate a 2.4m wide table making it a great solution for street markets, golf days or sporting events. Made from steel with a white powder coated finish, the frame easily shelters up to five people and folds completely into a portable wheeled carry bag. Custom fully printed canopy and walling is an optional extra.

Material	Steel frame, plastic joins
Graphic area	Double-sided (wall) / single-sided (canopy)

BORA
Tent

Inflatable tents

Bora Tent

The Bora Inflatable Tent is a sturdy and attractive option for outdoor displays. Create shade and shelter for a registration desk, refreshment area or meeting point that fully shows off a brand. As one of the largest products in the range, there is plenty of print area on the canopy and backwalls (optional extra) for brand messaging. The backwalls zip in, so can be changed for a different message from the canopy if you wish. The Bora Tent uses trapped air technology: silent and free-standing once inflated.

Parasol

Zoom Parasol

The Zoom Parasol is a professional-grade 2x2 metre square umbrella designed for maximum shade, visibility, and branding impact at outdoor venues. Crafted from a robust 40mm hexagonal aluminium frame, it offers the perfect balance of strength, stability, and modern design. Its durable build ensures it can withstand regular outdoor use, with wind resistance up to 15mph, making it ideal for cafés, markets, festivals, and promotional events.

An optional weather-resistant printed graphic provides a premium branding opportunity, delivering vibrant, high-quality visuals that stand out in any setting.

The parasol base is sold separately.

Temporary counters add a professional touch to any exhibition, event or retail environment.

They provide a useful area for display or presentation space, and the ability to add a graphic creates additional marketing opportunities as well as offering a convenient storage facility.

Our counters are available in a range of price points and shapes, depending on requirements.

Add impact to a welcome desk or a reception area in a public space with an illuminated counter or choose an outdoor option to promote a product or service at an open-air event.

Counters

Counters are the perfect partner for a promotional display or event to complement a backdrop or add focus to an area and are the ideal companions for any marketing campaign.

Promotional counters

Pop-up Counta

The Pop-up Counta is convenient lightweight pop-up counter that offers a substantial area to welcome guests yet packs down for easy transportation in a reinforced D-shaped wheeled trolley case.

The counter comes with shelves for storage and a beech-coloured counter-top. Often used for exhibitions, in supermarkets as a demonstration unit and for events.

Modulate™ Counter

Modulate™ Counter consists of an innovative aluminium tubular frame, counter top, and printed tension fabric graphic. Powerful magnets encased inside the frame enables two or more counters to connect using simple magnetic principles. The counter can be used on its own or combined to make a long reception or bar area. Modulate™ Counter can be deployed in minutes, thanks to the tool-less construction. The printed tension fabric graphic will either sit on or under the counter-top to suit the application.

Material	Ø 30mm Aluminium tubes, MDF tabletop/shelf
Assembly	Push-fit button
Collapsible	Yes
Counter top	Black
Shelves	1 (Optional)
Load bearing	40 kg
Shelf bearing	20 kg
Graphic attachment	Zip system
Transport	Padded carry bag, internal flap

Modulate™ Counter	FORM-MOD-CNTR	⊗ 800(w) x 1015(h) x 600(d) mm
Shelf	FORM-MOD-CNTR-02	⊗ 770(w) x 9(h) x 571(d) mm

Use it on its own or combined, simply by using the integrated magnets!

Tabletop is held in place by plastic moulding underneath

Optional shelf

2 possible finishes (with or without visible shelf)

Basic Curved Counter

With a Double-D shape counter-top, the Basic Curved Counter delivers a functional and stylish look which is perfect to use for a reception desk or meeting point. The Counter is made from a rollable Corex tambour wrap to create the curved shape which push-fits into the thermoformed counter-top and base. A graphic can also be applied to the curved base to promote a message or brand. There is an opening for storage at the rear of the unit.

Material	MDF tabletop/base, Corex wrap
Assembly	Push-fit - Tool-free
Collapsible	Yes
Counter top	Beech / black
Load bearing	50 kg
Transport	2 carry bags - included

Basics Curved Counter beech/beech	PK922-BEBE	⊗ 900(w) x 926(h) x 470(d) mm
Basics Curved Counter black/beech	PK922-BLKBE	⊗ 900(w) x 926(h) x 470(d) mm
Basics Curved Counter black/white	PK922-BLKW	⊗ 900(w) x 926(h) x 470(d) mm
Shelf	PK922-SHELF-KIT	⊗ 10(w) x 853(h) x 398(d) mm

Interchangeable tabletops and bases

Grey counter wrap

Carry bag included

Optional shelf

Fastframe™ Counter

Complete your exhibition stand with the FASTFRAME™ counter. Quick and tool free assembly. Simply unfold the frame and secure, adding a vibrant SEG graphic for visual standout. For easy transportation, the counter is supplied in a wheeled bag.

Material	Aluminium, nylon corner, MDF tabletop/internal shelf
Assembly	Tool less
Collapsible	Yes
Counter top	Black
Shelves	Yes
Load bearing	60 kg
Shelf bearing	10 kg
Graphic attachment	Silicone Edged Graphics (SEG)
Transport	FASTFRAME™ wheeled carry bag

illuminated Promotional Counters

Illumigo™ Counter

This versatile and quick to set-up double-sided counter lightbox is a great all-rounder not only at events but in retail environments from shopping centres to pop-up shops. Part of the Illumigo™ range, the Illumigo™ Counter is easy to assemble with a two-part counter top that secures using a pair of twist out top locators and locking screws. Building the unit is intuitive and tool-free as all the parts are numbered and simply slot together. Two optional graphics complete the look to create an impactful counter ideal for attracting attention in retail, event or exhibition environments.

Material	Aluminium 100 mm, MDF table top
Assembly	Tool-free
Collapsible	Yes
Counter top	White
Load bearing	20 kg
Graphic attachment	Silicone Edged Graphics (SEG)
Transport	Protective box with carry handle
LED System	LED strips included

Illumigo™	ILLGO-COUNTER	1040(w x 1045(h)) x 420(d) mm

Protective compartmented bag

Barrier systems improve queue management and help with crowd control.

For pedestrian control, café barriers can be used to make an attractive, professional and functional barrier, creating a temporary space that can be easily reconfigured to suit your needs.

Café barriers are easy to store, assemble, deploy and move to suit your requirements. They are available in economy and premium solutions, depending on your application and budget.

Barriers

Queue management systems can be used to control queues, providing structured and manageable lanes to help marshal customers and are also suitable for indoor or outdoor use.

Pedestrian control barriers

A cost-effective way of defining areas outside restaurants, bars, shopping centre and coffee shops, a complete Café Barrier system requires two posts and bases. To secure the graphic, there are two options; dependent on budget and where the system is being deployed.

If the Café Barrier is exposed to strong winds, we recommend a two-rail option ensuring the graphic is secured top and bottom to each post and base. If winds are not an issue but the budget is tight, then we suggest a single rail with two spring clips securing the bottom of the graphic.

Rails are available in 1m, 1.5m and 2m sizes, so it is quick and easy to calculate the number of café barriers required to define your space. To connect multiple barriers, add a choice of rails/spring clips plus one additional pole and base. For vibrant hardwearing graphics we can print on PVC.

Economy Café

Material	Aluminium
Graphic area	Double-sided / or single-sided
Graphic attachment	Looped top rail. Looped bottom rail or spring clips
Weight	9.13 kg

Graphic rail 1000 mm	UB214-1000	⌀ 1140(w) x 25(h) mm

The range of ancillary products include literature holders, lighting solutions for various hardware ranges and transportation cases.

These ancillaries offer flexibility and perfectly complement our product solutions.

Ancillaries

Enhance an exhibition stand by selecting various supporting products from our range of ancillaries that are often used to help promote your brand in a more impactful way, professionally display your latest literature, or add points of interest, making your stand more visible by using spot lights.

Literature holders

Zed-Up Lite

Zed-Up Lite are a popular range of aluminium literature stands that are stylish and highly portable. Quick and easy to deploy, Zed-Up Lite is ideal for exhibitions and displays, folding down for easy transportation in a heavy duty hard case.

Material	Acrylic and anodised aluminium
Colour	Silver
Documents sizes	A4
Pockets	6
Double-sided	Yes
Transport	Hard case (included)

Rigid carry case included

Lighting (standard)

Powerspot 950/1000 LED

Economical black LED spotlight particularly suitable for use with Pop-up stands.

Material	Aluminium and plastic
Positioning	270° - Straight arm
Watt output	12 watt (1400 Lumens/5500 Kelvins)
Watt consumption	12 Watt (1400 Lumens/5500 Kelvins)
Linked lights	2 max
Double kit includes	2 spotlights + 2.5m linking lead + 1 transformer
Power lead UK & Euro	Yes (cross head screwdriver needed)

Double kit	PS950-1000-LED-BDLK	Ⓞ, 103(w) x 425(h) x 29(d) mm
------------	---------------------	-------------------------------

Transformer included

Connect up to 5 lights with one transformer

Lighting (premium)

LED Floodlight

The LED Floodlight is the new stylish and economical way to illuminate a range of exhibition stands including Pop-ups, Formulate and a range of modular systems. Despite the compact design, this small LED light is still capable of producing 1200 Lumens but still only consuming a small amount of energy, making it far more efficient than the halogen equivalents. Link up to 5 lights together from one transformer, with handy linking cables.

Material	Aluminium and plastic
Watt output	80 watt
Watt consumption	12 watt (1200 Lumens/5631 Kelvin)
Linked lights	Link up to five to one transformer
Double kit includes	2 spotlights + 2.5m linking lead + 1 transformer
Power lead UK & Euro	Yes (cross head screwdriver needed)

Swivel head

Double kit	LED-FLOOD-ARM-BDLK	Ⓞ, 295(w) x 483(h) x 60(d) mm

Connect up to 5 lights with one transformer

Transportation box

Transformer included

LED Strip Light

The LED Strip light is designed to work with a wide range of exhibition stands including, Pop-ups, Formulate and a range of modular stands. It has a unique wide head design feature, allowing for a wider spread of light, helping you illuminate more of your message. Link up to 5 lights together from one transformer, with handy linking cables.

Material	Aluminium and plastic
Watt output	80 watt
Watt consumption	12 watt (1200 Lumens/5631 Kelvin)
Linked lights	Link up to five to one transformer
Double kit includes	2 spotlights + 2.5m linking lead + 1 transformer
Power lead UK & Euro	Yes (cross head screwdriver needed)

Swivel head

Double kit	LED-STRIP-ARM-BDLK	Ⓜ 100(w) x 520(h) x 35(d) mm
------------	--------------------	------------------------------

Transportation box

Transformer included

Connect up to 5 lights with one transformer

LED Exhibition Light

Specifically designed to work in conjunction with the Vector channel; this latest design requires no extra fitting, just plug in and switch on. Not only does the slick design make the LED Exhibition Light stand out from the crowd, the clever design cast out of aluminium allows any heat to dissipate over the entire body of the light, stopping any localised heat, which allows for long use with no overheating. Link up to 5 lights together from one transformer, with handy linking cables.

Material	Aluminium and plastic
Watt output	80 watt
Watt consumption	12 watt (1200 Lumens/5631 Kelvin)
Linked lights	Link up to five to one transformer
Double kit includes	2 spotlights + 2.5m linking lead + 1 transformer
Power lead UK & Euro	Yes (cross head screwdriver needed)
